

Terms for Breeding bitches

We require a negative culture on bitches coming for breeding.

If no live puppies result from the breeding at 4 weeks of age a return service will be given by the same dog if he is available at the time of the bitches next season. If the original dog is not available the return service can be done by a different dog if we have one available.

Stud Fees are payable before the bitch is returned after breeding.

Bitches remaining over 10 days after the last breeding date will be charged \$15.00 per day board.

We charge a \$25.00 fee for picking up and shipping bitches coming for a return service. As well as \$5.00 per day board.

If we agree to accept a bitch for breeding before she is in season there will be a \$15.00 per day board charge until she comes in season.

If the bitch needs progesterone testing it will be at the owner's expense, but only after their permission.

Artificial breedings are done routinely here so there is no additional charge if needed.
